## T

# eam effort makes dreams come

Santa Clara High School works to inform, mold, and transform young men and women through a well-rounded education both in the classroom and on the playing field.

In partnership with parents, Santa Clara engages students in a program of spiritual, academic, and athletic experiences. School activities, both athletic and academic, are aimed at developing a well-balanced high school student. This collective effort of youth and experience is the foundation of “team work.”

## E

# xpect success in all of your pursuits

To set the bar for success takes the effort of many: students, coaches, teachers, and parents. Coaches guide their players in the team effort; faculty instruct their students in academic achievement; and parents support the collective effort of forming the whole child. This support encompasses the time and resources of school and family.

## A
