

SANTA CLARA HIGH SCHOOL

A COLLEGE PREPARATORY HIGH SCHOOL

To Whom It May Concern,

July 7, 2021

It is with great pleasure that I recommend Jose Valerio to your scholarship committee. I was his sophomore year theology teacher and I can safely say that I learned so much from him while he was in my class. Jose is the most conscientious young man that I have had as a student in the past ten years! He leaves nothing undone, nothing to chance and he not only completes all of his work but completes it with the utmost quality.

Jose is a focused and reliable student that contributes to class discussions in a variety of ways. He is not reactionary but rather a calm, analytical thinker. He is one of those rare students that does more than required. He “raises the bar” for his classmates in both discussions and written material. He has earned numerous awards while at Santa Clara High School. The following are only the awards from this past school year: Highest honors award with a GPA of 4.0 or higher, Member of the National Honors Society with his National Honors Society Secretary coin, top of the Class award in A.P. European History, Biology Honors, Religion Honors, and the Multicultural Club.

I am very proud of his exceptional work ethic but honestly I’m the most proud of his heart. Jose is a great young man that leads others to Christ. As Christians we know that Jesus taught us to be humble servant leaders and that is exactly what Jose Valerio embodies. His humility and leadership abilities are extraordinary and he exudes these traits in everything that he does.

I highly recommend Jose Valerio to your committee without reservation and with utmost confidence. Please feel free to contact me at kmack@santaclarahighschool.com or 805-407-3975.

Sincerely,

Mrs. Kathy Mack
Theology Department Chair

RE: Jose Valerio

To Whom it May Concern,

I have known Jose Valerio for a little over three years. I have taught him in my Spanish 2, and 3 classes. I also have had the privilege to see his creativity in our school's Multicultural Club. Jose is an extremely talented student whose creativity is equally matched by his discipline. During the pandemic he helped out with the creation of videos, and powerpoints to celebrate the different cultures. Jose also displays leadership as he took the lead in helping build the Dia De Los Muertos Altar.

The way in which Jose has developed his talents has also given him a strong heart. He gives back to the community volunteering after school and is also very involved at Santa Clara High School being a member of the Multicultural Club, Interactive Club, Key Club, and the National Honors Society, and received the Highest Honors award for having a GPA of 4.0 or higher.

I am proud to recommend Jose. I am convinced that he is a great candidate for your 2021-2022 scholarship. If you have any questions feel free to contact me.

Sincerely,

Jose Abraham Pina

Dear Mrs. Valenzuela,

Jose is a marvelous student and a fantastic part of our community. I am a parent of one of the students he tutored. In the beginning of the school year my son struggled to learn anything through zoom, and I don't know a lot about the internet nor could I help him since I work and I don't know English. However Jose was like a blessing to me, when I found out about him. I saw my son excel in school, and everyday I saw my son eager to go with Jose to learn. I saw my son go from struggling to thriving in his class, and I can't thank Jose enough for his time, effort and work.

Sincerely,

Elvia Gomez

Mrs. Ofelia Rosette

Dear Mrs. Valenzuela

I have two kids, Angel Luis Rosette and Lindsay Luis Rosette, who were in fourth grade and in Kindergarten. For me as a parent it was hard to help my two kids this past school year as I don't know English. Jose has been a great help to my family. He helped my daughter especially with the alphabet, counting, and turning in her work through the tablet her school provided. For my son he received help with his math especially. Jose has really helped me this past year and he has been a blessing to my life.

Best regards,

Ofelia Rosette

Hello, my name is Jose Valerio and I am currently going to be a junior here at Santa Clara High School. I live with my Grandma, Grandpa, little brother, and my mom. I have lived in Oxnard my whole life and I have attended Hueneme Elementary School from preschool to kindergarten, Julien Hathaway Elementary School from first grade to fifth grade, E. O. Green middle school from sixth to eighth grade, and now I am currently enrolled in Santa Clara High School. As you probably already noticed I come from a background of public schools, so this has been my first time going to private school. I am very dedicated to my classes ever since I was in elementary school as I enjoy going to school, doing the school work, and interacting with the students and teachers.

I would like to continue studying here at Santa Clara since here I have a religion class, where I can learn about God, and have family values, which I would not be able to have in a public school.

I enjoy attending Santa Clara High School as I finally feel a part of something larger. What I mean by this is that when I attended public school I had my teachers, my tiny friend group, and the Math Olympiads club, other than that I didn't know anyone else, who their names were, nor they didn't even know who I was. Here in Santa Clara, I don't just feel like I am going to school, I feel like I am attending a community where everyone knows each other, no one is left out, and everyone feels welcome. Here I also learned to no longer be shy anymore and learned to talk with others, and I can thank all the very helpful sophomores, Juniors, and Seniors that made me no longer feel alone. As you already know I attended E.O. Green, and I was the only student from that school that went to Santa Clara High School, or so I thought. One day a sophomore told me she had been to E.O. Green as well, and she said that she also knew other students as well that attended E.O. Green, and that is why I would like other public school eighth graders to know about this school. It was also four Junior cheerleaders that pushed me to make friends on my first day of

school, and they said that even if I do not find friends I could sit with them. It was also seniors that sat next to me at lunch and break when I had no other freshman to sit with. Ever since my freshman year, I felt that I was part of a community, and I can thank God for putting me on this path, and always leading me wherever I go.

As I said beforehand, I enjoy how Santa Clara High School makes me part of a community, but I also enjoy how it has shaped me into a distinguished leader of my community. Ever since elementary school, I was a shy child who would not talk to anyone unless they talked to me first. However, here at Santa Clara, I broke out of my shyness and I now use this courage to help others. What you don't know about me is that I am currently (through dual enrollment) taking a course at Oxnard College. In this course the first task the professor made her students do was introduce themselves. I found out that a lot of students had just promoted from eighth grade and said that they were shy and nervous about entering high school. I then commented on their discussions and told them that

there was nothing to worry about. All they need to do is be confident in themselves and they would be courageous enough to talk to others. From that point, I made them not feel alone anymore as they had a new friend who went through the experience of being shy and going to high school. So for the large group of eighth grade students, I became a ray of light to help them feel confident in themselves, and know they were cared for and helped by somebody who cared about them, and I couldn't have done it without Santa Clara High School. I also learned that being a Saint I dedicated my time to serve others. I knew that at the beginning of this school year students would be struggling to learn as it was a new way of learning, and the parents in my neighborhood don't all know the most about the internet. So what I did was set up a free tutoring service for students in my neighborhood to attend. I would get lots of compliments from the parents and students for dedicating my time to help students learn and excel in their classes. I, Jose Valerio attribute all my success to God for placing me in Santa Clara, as I knew that if I

were not placed in Santa Clara I
would not be the person I am
today. I also just can't wait for
what else I will learn in this
fabulous school.

Student Name: Valerio, Jose Daniel
